January 2019

# Helping your business thrive and prosper

In a digital world, consumers place a high value on mail. We believe in the power of 1 to 1 communications to build customer relationships. Technology has transformed communications, but the core strengths of mail have endured and in some cases grown even stronger. Mail helps you connect with your customers and attract new customers in a way that few other channels can, especially when combined with digital.

Royal Mail is the UK's designated Universal Postal Service Provider, supporting customers, businesses and communities across the country. We are the only company that has the capability to deliver a 'one-price-goes-anywhere', six-days-a-week service on a range of letters and parcels to more than 29 million addresses across the UK.

## Online Price Calculator

Use our online price calculator to find the best options for your mailing. There's also a downloadable excel version.

\*Volume Related Discounts for Direct items are based on total daily volumes over multiple sales order lines providing all items are posted on the same day; posted from the same posting location (site); posted via the same product and format, and only apply to Direct items (Residue items are not counted towards the calculation).

Please note when you are making a Low Sort posting and have the option on OBA to enter the volume as either Directs or Residues please select the Direct option. While there is only one sorting option available, to ensure that the correct discounts are applied please enter the items as 'directs'.

Mailings of less than 10,000 items may be charged at a higher rate.

Discounts apply after all other discounts (VRDs, sortation etc) are applied but before mailing standard levy and VAT.

# Partially Addressed Mail™

## Calculating the price of your mailing

**Step 1:** Find the full price for the items you are mailing from Table 1. If the item is Large Letter format and weighs more than 250g, then an incremental price should be added to the full price based on the exact weight of the item. The incremental price is calculated as the incremental weight in grams above 250g multiplied by the gram price increment. The result is rounded to the nearest 1/10th of a penny.

**Step 2:** Identify the appropriate sortation and machine-readable discount from Table 2.

**Step 3:** Add to the sortation and machine-readable discount the applicable Volume Related Discount (VRD) from Table 3.

**Step 4:** Apply the aggregate discount percentage to the full price to calculate the item price.

**Step 5:** Multiply the item price by the number of items to calculate the total transaction price excluding VAT and Mailing Standards Levy.

### Worked example

**A Low Sort Economy posting of 102,000 Letters Mailmark weighing 80g each.**

**Step 1:** The full price for a Low Sort Economy option 80g Letter = 21.0p from Table 1.

**Step 2:** Sortation and machine-readable discount for Low Sort Letter Mailmark = 22.97% from Table 2.

**Step 3:** VRD from Table 3 = 5.62%, added to the sortation and machine-readable discount of 22.97% gives total aggregate discount of 28.59%.

**Step 4:** Price per item =  $21.0p \times (100\% - 28.59\%) = 14.9961p$ .

**Step 5:** Total price of mailing =  $(14.9961p \times 102,000) / 100 = \text{£}15,296.02$  (excluding VAT and Mailing Standards Levy).

### Trayed Mail Savings:

Low Sort Letter mailings presented in trays will save 0.3p per item from

Table 4 =  $(0.3p \times 102,000) / 100 = \text{£}306.0$  (excluding VAT and Mailing Standards Levy).

Total tray price of mailing =  $\text{£}14,990.02$  (excluding VAT and Mailing Standards Levy).

### Aggregating volumes on Direct selections to achieve and maximise Volume Related Discounts:

In order to reach the VRD threshold on any given posting day, and to maximise the level of VRD obtainable, you can aggregate volumes on Direct selections in 2 ways:

1. You can combine a number of the same product / service level mailings onto one confirmed sales order. You will need to show in the comments field all the job reference numbers or part jobs included on that confirmed sales order. If you do this and then have multiple entries on a single confirmed sales order you must link the individual lines with the appropriate Customer Reference Number (CRN) to maximise your Volume Related Discount.
2. If you are unable to show all mailings for one day on a single confirmed sales order (usually because mailings are at different times) you must put the same Customer Reference Number (CRN) on each confirmed sales order and against each multiple entry. It is not possible to aggregate different sales orders posted on the same day for any unsorted products (Business Mail, Advertising Mail and Business Mail Advance).

Any applicable VRDs are calculated at the time you confirm your sales order and will be reflected on the invoice for that date of posting.

Table 6 – Trayed Mail Savings

	Saving per item
High Sort Letters	0.30p

Discounts apply after all other discounts (VRDs, sortation etc) are applied but before advertising levy and VAT.

Mailings of less than 10,000 Letters may be charged at a higher rate.

### Calculating the price of your mailing

**Step 1:** Find the full price for the items you are mailing from Table 1. If the item weighs more than 250g (above 1000g for Parcels), then an incremental price should be added to the full price based on the exact weight of the item. The incremental price is calculated as the incremental weight in grams above 250g (above 1000g for Parcels) multiplied by the gram price increment. The result is rounded to the nearest 1/10th of a penny.

**Step 2:** Identify the appropriate sortation discount from Table 2 and Table 3.

**Step 3:** Add to the sortation discount the applicable Volume Related Discount for Direct (from Table 4) and Residue items (from Table 5).

**Step 4:** Apply the aggregate discount to the full price to calculate the item price for Direct and Residue items.

**Step 5:** Multiply the Direct and Residue prices by the number of items in each category.

**Step 6:** Add the Direct and Residue values together to calculate the total transaction price excluding VAT and Mailing Standards Levy.

# Partially Addressed Mail™

### Worked example

A High Sort 2nd Class option posting of 102,000 Letters weighing 80g each. 90,000 of these are Directs and 12,000 are Residues.

**Step 1:** The full price of Directs from Table 1 = 25.1p, The full price of Residues from Table 2 = 29.5p

**Step 2:** Direct Sortation Discount = 8.76%, Residue Sortation Discount = 6.35% from Table 3.

**Step 3:** Direct VRD from Table 4 = 5.29%, added to the Direct Sortation Discount of 8.76% gives total discount for Direct items of 14.05%. Residue VRD from Table 5 = 0.0%, added to the Residue Sortation Discount of 6.35% gives a total discount for Residue items of 6.35%.

**Step 4:** Price of Directs =  $25.1p \times (100\% - 14.05\%) = 21.5735p$ .  
Price of Residues =  $29.5p \times (100\% - 6.35\%) = 27.6268p$ .

**Step 5:** Price of Directs in mailing =  $(21.5735p \times 90000)/100 = \text{£}19,416.15$ .  
Price of Residues in mailing =  $(27.6268p \times 12,000)/100 = \text{£}3,315.22$ .

**Step 6:** Total for this mailing =  $\text{£}19,416.15 + \text{£}3,315.22 = \text{£}22,731.37$   
(excluding VAT and Mailing Standards Levy).

### Trayed Mail Savings:

High Sort Letter mailings presented in trays will save 0.30p per item from Table 5 =  $(0.30p \times 102,000)/100 = \text{£}306.00$  (excluding VAT and Mailing Standards Levy).

Total tray price of mailing =  $\text{£}22,731.37 - \text{£}306.00 = \text{£}22,425.37$   
(excluding VAT and Mailing Standards Levy).
